# *Fowler Transportation News*

Fowler Elementary School District #45

## Special points of interest:

- \* New Web-based Route lists are available on the District Website.
- \* Trip Tracker is ready for you to request fieldtrips.
- \* Our Bus Routes have changed this year. All changes are reflected in the online route sheets

## Welcome back for a new School Year!

The Fowler School District Transportation Department Welcomes everyone back for our New School Year. We have been working hard all Summer preparing improved procedures and protocols to better serve our students and schools.

We look forward to working with the various staff at our schools during the coming year.

Please use the list to the right to determine who to contact for specific information or help in accomplishing transportation related activities during the coming year.

## New Routes Designed

We have changed our Routes to better serve our students and schools while improving the efficiency of our transportation system. We will be working the first month of school fine tuning the system to ensure we are able to accomplish our objectives with safety

and comfort for our students.

We will be monitoring the route times and population to make sure that we can successfully transport the students safely. When we make any changes necessary to address issues

on the routes we will notify students, parents and administrators as timely as possible.

All changes will be displayed on the Online web pages as soon as they are implemented.
