YOU'RE INVITED!

OVERVIEW

Valley Metro and the City of Phoenix have initiated the West Phoenix High-capacity Transit Alternatives Analysis for the high-transit usage Maryvale area in west Phoenix. The study will identify a recommended route and type of high-capacity transit – such as bus rapid transit, streetcar or light rail transit – that will best meet the area's transportation needs. We want to connect with you to share an overview of the study, hear your thoughts and share the next steps.
